

## Improve Collaboration and Productivity

# Mobile App

### VoIP Made Mobile

The Cytracom Mobile App provides a truly integrated business VoIP experience across iOS or Android devices. The app requires zero configuration—simply log in with your Cytracom credentials and you are ready to go! Keep up with all important business communications while maintaining separate business and personal personas. Never miss a business call again. Manage your communications with these powerful features:

- [Team Messaging](#) — collaborate anytime, anywhere,
- [Presence](#) - monitor the availability status of other phone users in the business.
- [Manage Voicemail](#) - read and manage voicemail messages.
- [Manage Calls on the Go](#) - effortlessly make, receive, add, merge, and transfer or split calls.
- [Contact List](#) – filter by office extensions or device contacts.
- [Incoming Call Identification](#) – quickly identify business calls.

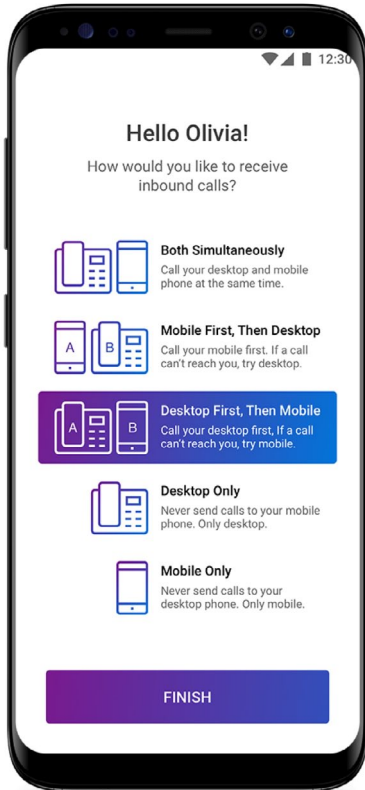

### Requirements

- Apple iOS: iPhone 5 or later, iOS 11 or later
- Android OS: Marshmallow, Nougat, Oreo, Pie or later. See Help Center for supported devices and form factors.
